Company Profile

Astraeureka Pharmaceuticals is a fast growing Indian Pharmaceutical Company with focus on Sales, Distribution, Manufacturing & Exports of Pharmaceutical Products. We are engaged in getting high quality pharmaceutical products manufactured from the best-in-industry manufacturers. We own state-of-the-art infrastructure for storage and distribution of goods.

We have lots of competitive advantages compared to other pharma companies in terms of offering better rates, trade mark registered products, multi-national level marketing support, international standard matching quality products, complete PMT support, training & development programs.

Our team is highly trained and experienced with expertise in handling the products through its entire journey from lab to the bed side of the patients. We have a portfolio of differentiated products across wide therapeutic categories such as Anti-inflammatory, Analgesics, Anti-biotics, Gastrointestinal Gynecological products, Injectables, Anti-allergics etc.

Mission

Our mission is to be a trusted partner of the healthcare professionals in order to support their efforts in treating patients by making available the best, innovative, high quality & affordable medicines.

Our vision is to build a global company that provides extra ordinary solutions to make the world healthier.

Vision

Value

We take pride in our ethical working, supportive culture & honesty . We have the courage to do the right things and ability to do the things right. We are inclusive, share our vision & embrace good ideas from all stake holders. We create opportunities, nurture relationships, support the talent to achieve shared objectives together. We anticipate needs, honor our commitments, deliver more than expected and do it cheerfully.

Strategic Priorities

Provide partners with the best-possible solutions to their needs. Exhibit professionalism both as an organization and as individuals. Work wholeheartedly, think positively, go the extra mile to serve better. Adopt a spirit of openness, mutual respect & allow each team member to make his or her unique contribution to our collective success.

From The Director Desk

I am pleased to say that Astraeureka Pharmaceuticals. is one of the most highly regarded and fastest growing pharmaceutical companies in India, specializing in providing best-in-class medicines. The foundation of our success is the combination of people who are masters in their own field and a business model that not only meets out client's requirements but also addresses the needs of the end consumer. We believe that whether its our business partners or supply chain partners or healthcare professionals, patients' wellbeing is the common concern.

Mr.Tushar I.Patel
(Director)

Marketing Support

We are not just another pharma company, but are backed by some solid support from our Directors and Promoters who have a rich experience in pharmaceutical industry. We have a full integrated marketing and product management department with vast experience of handling the variety of products throughout their product life cycle. Our product management team consists of Masters in Pharmacy, Masters in Clinical Research and Masters in Pharmaceutical Management people with a huge experience of doctor, retailers and stockiest calls. This makes us capable of understanding what the doctors want to listen and know.

Manufacturing Facilities

Our manufacturing partners ensure world-class quality in design, equipment and operations that percolates in the quality of our products. We share common manufacturing facilities with some of the renowned MNCs and reputed large Indian Pharmaceutical Companies, hence the quality of our products can be rest assured of. A wide range of regulatory agencies routinely conduct stringent audits of our manufacturing partners for compliance to ensure very high quality pharmaceutical formulations though their stringent quality control and quality assurance guidelines and as per the standards laid down in international guidelines

Quality Control & Quality Analysis

Our quality control department is well managed by a team of experienced professionals and supported by a set of laboratories that work in coherent fashion under the same umbrella. The vision of this quality control department of our company is to dedicate themselves in improvement of health and well being of our society by providing quality products manufactured using the best talent of our people with new technology. We have well equipped advanced laboratories where the tests are conducted pertaining to quality control as per the Pharmacopoeial Standard.
