

Brand Name: VITA-BL

Composition: L-Lysine & B-Complex syrup

Dosage Form: Syrup

Category: Nutritional Supplement / Vitamin B Complex with Lysine

Packaging Type: PET bottle

Packaging: 200 ml

Brief Product Information:

VITA-BL Syrup is a vitamin B complex and amino acid-rich nutritional formulation manufactured by **AstraEureka Pharmaceutical**, a trusted manufacturer of composition. It combines essential B-vitamins with L-Lysine to support metabolic energy, appetite stimulation, growth, and overall vitality. B-complex vitamins help in cellular energy production and nervous system function, while L-Lysine aids in protein synthesis and appetite enhancement. Ideal for children, adults, and convalescing patients, VITA-BL supports recovery and improves appetite and stamina. The syrup is palatable and suitable for daily supplementation. Recommended dose: 5–10 ml daily or as directed. Store in a cool place. Available in 200 ml PET bottles.

Composition:

Each 15 ml contains:

- Energy.....7.0 Kcal
- Carbohydrate.....1.75 g
- Protein.....0.15 g
- Fat.....0.0 g
- Thiamine Mononitrate (Vitamin B1).....1.8 mg
- Riboflavin (Vitamin B2).....2.0 mg
- Pyridoxine HCl (Vitamin B6).....1.8 mg
- D-Panthenol (Vitamin B5).....5.0 mg
- L-Lysine Hydrochloride.....150 mg

Key Ingredients:

- Vitamin B1, B2, B5, B6
- L-Lysine Hydrochloride

Key Benefits:

1. Enhances appetite and digestion
2. Supports nervous system and metabolism
3. Aids in growth and tissue repair
4. Useful in fatigue and vitamin B deficiencies
5. Helps improve immunity and energy

Indications:

1. Loss of appetite
2. Growth and development in children
3. Convalescence and general fatigue
4. B-complex deficiency states
5. Nutritional support in illness or stress

Directions for Use:

1. Shake well before use
2. Consume directly or mix with water
3. Use measuring cap provided

Dosage and Administration:

1. Children: 5 ml once daily
2. Adults: 10 ml once daily
3. Or as directed by a healthcare provider

Safety Information:

1. Store in a cool, dry place
2. Do not exceed recommended dose
3. Keep out of reach of children
4. Safe for daily use unless contraindicated
5. Consult a doctor if pregnant or lactating

Mechanism of Action:

- **B-Complex Vitamins (B1, B2, B5, B6)** act as coenzymes in numerous metabolic pathways, supporting energy metabolism, red blood cell formation, and neurological function.
- **L-Lysine** is an essential amino acid that promotes protein synthesis, enhances calcium absorption, and stimulates appetite, especially in pediatric and recovery cases.

Together, they improve nutritional status and support physiological well-being.

Contraindications:

1. Known hypersensitivity to any component
2. Severe liver or renal impairment (use with caution)
3. Not intended for parenteral use

Side Effects:

1. Mild nausea (rare)
2. Allergic reaction (rare)
3. No major side effects reported with prescribed use

Important Notice:

- To be used under medical guidance
- Not intended as a sole source of nutrition

Storage Condition:

1. Store below 25°C.
2. Protect from light and moisture.
3. Do not freeze.

Packing Information:

- Supplied in 200 ml PET bottle.
- With outer box.
