

**Brand Name: ALO-EUREKA SOAP**

**Composition:** Triclosan, Teatree oil, Zinc oxide, allantoin, vitamin E medicated soap

**Dosage Form:** SOAP

**Category:** MEDICATED SKIN CLEANSER

**Packaging Type:** box

**PACKAGING:** 75 gm

**Brief Product Introduction:**

**ALO-EUREKA SOAP** is a medicated cleansing formulation enriched with antibacterial, anti-inflammatory, and skin-repairing ingredients. Manufactured by **AstraEureka Pharmaceutical**, a reputed **manufacturer of composition-based medicated personal care products**, this soap is ideal for daily hygiene, skin protection, and managing common dermatological concerns such as acne, irritation, and bacterial infections. It combines the natural power of Tea Tree Oil and Allantoin with the antimicrobial actions of Triclosan and Zinc Oxide for a comprehensive skin-care solution.

**Composition:**

Tea Tree Oil.....	0.5% w/w
Zinc Oxide IP.....	0.5% w/w
Triclosan USP.....	0.5% w/w
Vitamin E (Acetate) IP.....	0.25% w/w
Allantoin.....	0.25% w/w
Soap Noodles Base.....	q.s.

**Key Ingredients:**

1. Tea Tree Oil – Natural antimicrobial and anti-inflammatory agent that helps control acne and skin irritation
2. Zinc Oxide – Provides mild astringent and protective action; helps in soothing inflamed skin
3. Triclosan – Broad-spectrum antibacterial agent that eliminates bacteria on the skin
4. Vitamin E (Acetate) – Antioxidant that nourishes the skin and protects from free radical damage
5. Allantoin – Promotes skin repair, soothes itching, and accelerates cell regeneration
6. soap Noodles – Forms the cleansing base for gentle skin cleansing

**Key Benefits:**

1. Effectively cleanses and disinfects the skin
2. Reduces acne-causing bacteria and controls oil
3. Soothes inflamed, irritated, or itchy skin
4. Improves skin texture and supports natural healing
5. Protects against environmental pollutants and microbial exposure
6. Suitable for daily use on all skin types, including acne-prone skin

**Indications:**

1. Acne-prone and oily skin
2. Bacterial skin infections and body odor
3. Rashes and minor skin inflammation
4. Daily personal hygiene to prevent microbial buildup
5. Skin irritation caused by pollution or sweat

**Directions for Use:**

1. Wet the skin surface
2. Apply ALO-EUREKA SOAP generously and work up a lather
3. Massage gently over face or body for 1–2 minutes
4. Rinse thoroughly with clean water
5. Use twice daily for best results or as recommended by a physician

**Dosage and Administration:**

1. For external use only
2. Use twice a day or as directed by a dermatologist
3. Can be used for full body cleansing in affected individuals
4. Avoid contact with eyes and mucous membranes

**Safety Information:**

1. Patch test before first use in case of sensitive skin
2. Avoid contact with eyes; if contact occurs, rinse thoroughly with water
3. Discontinue use if rash or irritation occurs and consult a physician
4. Keep out of reach of children
5. Do not use on open wounds or severely inflamed skin

### **Mechanism of Action:**

- Tea Tree Oil disrupts microbial cell membranes and reduces inflammation  
Triclosan inhibits fatty acid synthesis in bacterial cell walls, leading to bacterial death
- Zinc Oxide acts as a physical barrier and a mild antiseptic, reducing irritation and microbial colonization
- Allantoin promotes tissue repair by increasing water content and softening keratin
- Vitamin E supports healing and skin regeneration through antioxidant properties

### **Contraindications:**

1. Known hypersensitivity to any ingredient in the formulation
2. Not suitable for use on broken or severely damaged skin without medical advice

### **Side Effects:**

1. Rare: Mild itching, redness, or dryness at application site
2. Very rare: Allergic skin reaction in sensitive individuals

### **Important Notice:**

- This is a medicated soap intended for dermatological use  
Do not ingest
- For best results, use regularly as part of a skin hygiene routine
- Not intended for use in infants unless prescribed

### **Storage Condition:**

1. Store in a cool, dry place away from direct sunlight
2. Keep in original packaging
3. Do not expose to excessive heat or moisture

### **Packing Information:**

- Each unit contains one bar of **75 gm ALO-EUREKA SOAP**
- Packed in a sealed, labeled box with usage instructions included
