### **Key Ingredients:**

- **Lecithin:** A phospholipid that supports liver health and aids in fat metabolism.
- **Silymarin:** A potent antioxidant derived from Milk Thistle, known for its hepatoprotective properties.
- **Zinc:** Vital for enzymatic functions and immune support.
- **Amino Acids:** Support protein synthesis and liver tissue repair.
- **Vitamins:** Provide antioxidant protection and boost energy metabolism.

### **Key Benefits:**

1. Supports healthy liver function and detoxification
2. Protects liver cells from oxidative stress and damage
3. Enhances metabolic processes and energy production
4. Aids in fat metabolism and cholesterol regulation
5. Supports immune function and cellular repair

### **Indications:**

1. Liver disorders (e.g., fatty liver, hepatitis, cirrhosis)
2. Alcoholic liver damage
3. Hepatotoxicity due to drugs or toxins
4. Nutritional deficiencies
5. Recovery after prolonged illness or liver stress

### **Directions for Use:**

1. Take orally with water after a meal
2. Do not crush or chew
3. Use as prescribed by a registered healthcare professional

### **Dosage and Administration:**

1. **Adults:**
  - 1 tablet once or twice daily or as advised by the physician.
  - Dosage may be adjusted based on clinical condition and response

### **Safety Information:**

1. Consult your physician before starting, especially if you are pregnant, nursing, or have chronic liver disease
2. Avoid alcohol while on liver-supportive therapy
3. Keep out of reach of children

### **Mechanism of Action:**

- **Lecithin** improves liver lipid metabolism and membrane integrity, aiding in fat emulsification and liver protection.
- **Silymarin** stabilizes hepatocyte membranes, acts as a free radical scavenger, and promotes regeneration of liver cells.
- **Zinc** contributes to antioxidant defence and enzymatic repair of liver tissues.
- **Amino Acids** and **Vitamins** support protein synthesis, cell repair, and metabolic enzyme activities essential for liver recovery.

### **Contraindications:**

1. Known hypersensitivity to any ingredient in the formulation
2. Severe hepatic insufficiency without medical supervision
3. Patients on other hepatotoxic medications (use with caution)

### **Side Effects:**

1. Mild gastrointestinal discomfort
2. Nausea or bloating in sensitive individuals
3. Rare allergic reactions (rash or itching)

### **Important Notice:**

- LEPTAGON Tablet is a nutraceutical supplement and should be used under medical guidance.
- It is not intended to diagnose, treat, cure, or prevent any disease.

### **Storage Condition:**

1. Store in a cool, dry place below 25°C
2. Protect from direct sunlight and moisture
3. Keep in original packaging

### **Packing Information:**

- LEPTAGON tablets are available in 3 × 10 alu-alu pack.
- Each alu-alu is tamper-evident and designed to preserve tablet integrity.
